Personal Portfolio Website – Progress Report (50% process)

Prepare a detailed progress report that captures **50% completion** of your personal portfolio website. You do not need to have the website fully functional yet, but your report should demonstrate that substantial planning and early development work has been done.

Your Report Should Include the Following Sections:

1. **Project Overview**

   o Tools/technologies planned or already used

2. **Website Structure & Sitemap**

   o Basic navigation flow

   o List of pages (at minimum: *Home, About Me, Skills, Portfolio, Contact*)

3. **Content Outline**

   o Draft or planned content for each major section:

      ▪ **About Me**: Personal introduction, academic background, interests

      ▪ **Skills**: Technical and soft skills with relevant examples or proficiency levels

      ▪ **Portfolio**: List of projects, planned visuals, and short descriptions

      ▪ **Contact**: Email, phone, social media links, or contact form plan

      ▪ *(Optional)*: Blog or Resume section

4. **Wireframes or Sketches**

   o UI/wireframes of each page → https://balsamiq.com/product/ or https://www.figma.com/

   o Clearly labeled sections and user interface elements

5. **References**

   o Inspiration sources (links or screenshots)

6. **Deployment Planning**

   o Tools or platforms for Deploy (e.g., GitHub repo, Vercel, Netlify, Digital Ocean, hosting (Cloud, VPS, or shared))
